NetFM have successfully delivered parking solutions to blue chip, public sector and SME clients for over 20 years. The Visitor.Express Parking app has been designed to be flexible and efficient — handing you and your business ultimate control of employee and visitor parking with minimal administration and no mandatory hardware requirements.
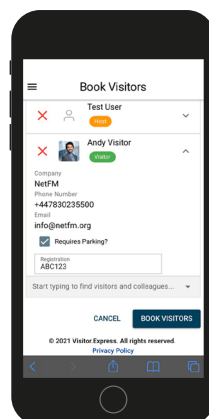

Quick and Easy Employee Parking

Empower your employees to manage their own parking with a simple booking process using any device. Benefit from instant bookings and/or ongoing permits with one-click cancellation.

Visitor.Express also includes support for electric vehicle and blue badge parking.

Automate Parking Admin

Allocate permits for specific spaces, restrict to specific days or departments, allow hourly or daily parking bookings — and manage multiple sites, each with individual rules. Visitor.Express makes it simple to change much of your system's set-up as and when you need it, with no further billing.
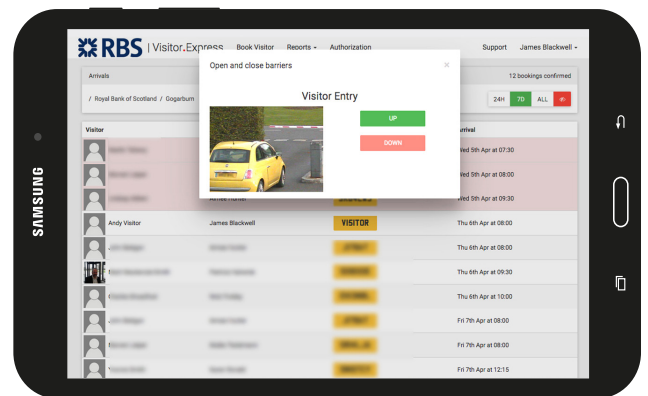

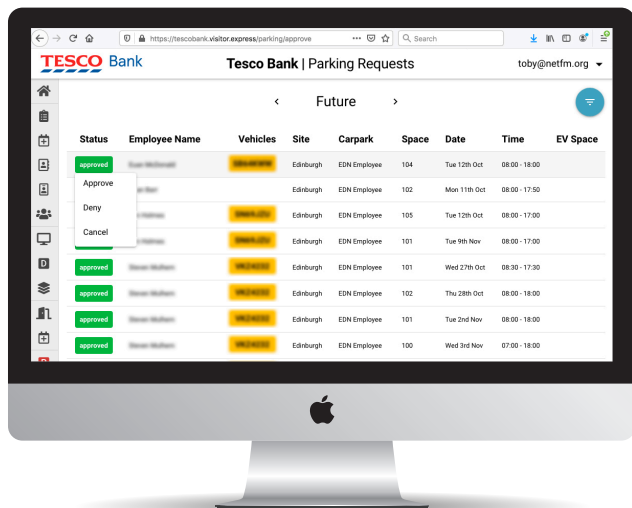

A Great Visitor Parking Experience

Research shows happy visitors spend more and engage better, so give them a great visitor experience from the outset. Send instant branded visitor parking confirmation SMS/emails with directions to site and ensure your visitors arrive with less stress and more positivity knowing they have a defined space to park in for the duration of their stay.

Visitor.Express delivers a simple one-click visitor parking solution and removes the stress of booking and managing parking for clients and suppliers.

Streamline Car Park Administration, Maximise Parking Resources, Optimise Parking Experience
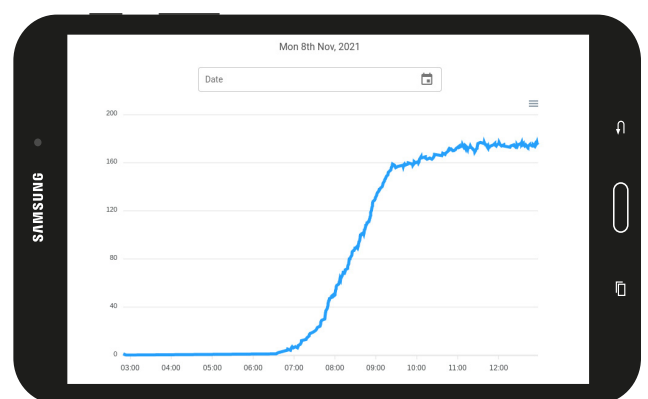

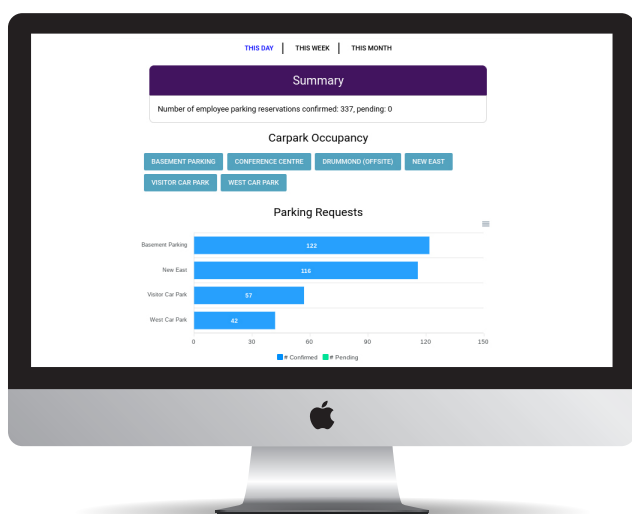

Visitor.Express gives your admin, security and facilities departments ultimate control of parking assets with a minimum of input or resources. Choose how your business delivers employee and visitor parking:

- Allocate physical or virtual permits
- Allow permit holders to release their space when not in use
- Offer unlimited bookings or restrict individual users or groups to a specified number of hours/days per week/month

- Support security teams by tightly controlling self-service real-time bookings and monitoring car park occupancy
- Bespoke reporting with historic and real-time data
- Activate our Fair Share algorithm to ensure all employees receive an equal number of bookings

Multiple onboarding options, downloadable reporting and access to a full data admin area makes the initial system set-up and ongoing management a breeze.
